Avian Flu Update

The Avian Flu could reach North America within months as wild birds begin their migration toward the Arctic and Alaska, according to a top health official at the United Nations. The only places where Asian, European and American migratory birds commingle is over northern and Arctic regions.

Influenza A (H5N1) is a virus subtype that occurs mainly in birds, is highly contagious among birds and can be deadly to them. Infections with these

Caffeine and Your Metabolism

People who process or metabolize caffeine slowly are at higher risk of myocardial infarction (heart attack) than those who process caffeine rapidly according to a study published in the Journal of the American Medical Association.

The study followed 2,014 individuals living in Costa Rica between 1994 and 2004. Researchers adjusted for age, sex, and area of residence. The

Some Risk Management Services include:

- Designing an Early Return-to-Work Program specifically for your business.
- Analyzing your Workers' Compensation Experience Modification.
- Developing an Injury & Illness Prevention Program (IIPP) for your business.
- OSHA Recordkeeping Compliance.
- Evaluating your loss control program.
- Providing sound hiring advice.
- Help Fight Work Comp fraud and abuse.
- Analyzing your insurance program.
- Identifying coverage gaps and overlaps, as well as assess overall cost effectiveness.
- Evaluating your insurance program limits, retentions, and overall structure.
- Analyzing your contracts and agreements to identify and evaluate risk implications and insurance requirements.
- Designing self-insured or partially self-insured group health plans.

Researcher concluded that intake of coffee is associated with an increased risk of heart attack only among individuals with slow caffeine metabolism, suggesting that caffeine plays a role in this association. The findings could explain why earlier studies have reached such different

UAIS will do a complete risk analysis of the external and internal risks facing your business and present you with a comprehensive evaluation. This evaluation will form the basis of the ultimate design of your Risk Control / Insurance Program.

Risk Management Services

UAIS helps employers control their losses because employers understand this will help control their costs as well as prevent or reduce bodily injury and property damage.

Employers are faced with limited resources when managing the known and unknown risks that may cause financial loss. Our systematic approach to risk management helps employers identify their loss exposures and then assist them in creating cost-effective and efficient solutions. Our solutions range from reducing the potential for loss to arranging the best available means to fund losses that do occur.

"The goal is to achieve an overall reduction in the costs associated with risk."
